

Dear Customers,

Yamato offers the worldwide bestselling multihead weigher specially designed for the weighing of frozen food. We are preferred business partner not only due to the ingenious features of our machines but also due to the excellent service before and after the purchase of the equipment.

Confidence, production reliability and quality are the basis of our cooperation with you!

As follows we present you two multihead weighers which are recognized as the best solution for weighing of frozen food.

You will be convinced by our transparent and customer-friendly concept. Our offer contents: extension of the manufacturer warranty\* up to five years, trade-in of old machines, and many other convenient conditions. These beneficial terms should help you to come to the right buying decision. In cooperation with you, our sales consultants will design the required packaging solution in order to meet the special requirements of your production process.

We look forward to hearing from you!
